Create a New Page for ITU **Number** (i.e., Y.2060 →	You are not allowed to add pages

Founded in 1865 to facilitate international connectivity in communications networks, we allocate global radio spectrum and satellite orbits, develop the technical standards that ensure networks and technologies seamlessly interconnect, and strive to improve access to ICTs to underserved communities worldwide. Every time you make a phone call via the mobile, access the Internet or send an email, you are benefiting from the work of ITU.

ITU is committed to connecting all the world's people – wherever they live and whatever their means. [1)]
