

Appendix B: Quality of Service (QoS) Parameters

[Return to Appendices](#)

These are the [Quality of Service \(QoS\) Policies](#) parameters defined within the main [Data Distribution Service \(DDS\)](#) specification and some are defined within the [DDS Security](#) specification

a. Standard QoS Policies b. Vendor Extensions

DDS Specification QoS

Other DDS QoS parameters

In addition to these standardized DDS QoS parameters, each vendor can offer QoS which are specific to their product. See the individual vendors for the details about these additional QoS parameters.
