Platform Specific Model (PSM)

Return to Glossary

Platform Specific Model (PSM) is a model of a subsystem that includes information about the specific technology that is used in the realization of it on a specific platform, and hence possibly contains elements that are specific to the platform. A view of a system from the platform specific viewpoint, combining the specifications in the PIM with the details that specify how that system uses a particular type of platform Source: Platform-Specific Model (PSM)
