Technical Standards Bodies

return to Standards Area

Technical standards are developed by Standards Organizations [1]. Standards organizations are organizations whose primary activities are to develop, coordinate, promulgate, revise, amend, reissue, interpret, or otherwise produce technical standards intended to address the needs of a group of affected adopters.[2]

The DIDO RA provides data sheets for technical standards developed by the following organizations:

- Apache Software Foundation (ASF)
- ECMA International
- Institute of Electrical and Electronics Engineers (IEEE)
- International Electrotechnical Commission (IEC)
- International Organization for Standardization (ISO)
- International Telecommunications Union (ITU)
- Internet Engineering Task Force (IETF)
- National Institute of Standards and Technology (NIST)
- Object Management Group (OMG)
- Open Source Initiative (OSI)
- Organization for the Advancement of Structured Information Standards (OASIS)
- World Wide Web Consortium (W3C)

1)
also known as standards body, Standards Developing Organization (SDO), or Standards Setting Organization (SSO)
