

Archiving and Release Management

[Return to Tools](#)

Source: [Tools for managing open source programs](#)

- **Artifactory** – Artifactory is a repository manager from JFrog which supports software packages created in any code language. It integrates with all major DevOps and continuous integration and continuous deployment tools. Artifactory is available as a commercial or as an open source tool. <https://www.jfrog.com/artifactory/>
- **Bintray** – A commercial archiving tool from JFrog that allows companies to publish their code release archives to maintain storage for older and larger files. <https://bintray.com/>
- **Docker Hub** – A cloud-based registry service which allows users to link to code repositories and build and test their images. It also stores manually-pushed images and links to [Docker Cloud](#) so users can deploy images to project hosts. Docker Hub is a centralized resource for container image discovery, distribution and change management, collaboration and workflow automation throughout the development pipeline. <https://hub.docker.com/>
- **github-release** – The open source, built in functionality part of GitHub which lets users [package and edit releases](#) of projects on GitHub so they are available for use by other community members. <https://github.com/aktaugithub-release>
