Appendix E: Tools

Return to Reference Architecture (RA) or Return to Appendices

As with all projects, DIDOs require tools to support their development, management, and operation. The following lists of tools are meant to be informative and by no means exhaustive.

Community Tools

The following tools are used to aid in the development of software, particularly the development of Open Source Software (OSS).

- Tools: Archiving and Release Management
- Tools: Bug and Issue Tracking
- Tools: Code Reviews
- Tools: Contributor License Agreements (CLA)
- Tools: GitHub Management at Corporate Scale
- Tools: Logging Tools
- Tools: Open Source Paradigm
- Tools: Project Quality
- Tools: Source Code Scanning and License Compliance
- Tools: Tracking Project Health

Network Traffic Analysis Tools

- Tools: Network Traffic Analysis

Tools for communications and collaboration

- Tools TBD

Tools for corporate-scale GitHub management

- Tools TBD
